

Step1: Install Metamask

Or equivalent Crypto Wallet (1).

<https://metamask.io/download/>

Disclaimer: managing a Crypto wallet requires to be familiar with it and you are responsible of the operations you do with them.

Step 2: Visit an exchange

Purchase 0.4 BNB with normal currency to fill your Wallet.

<https://www.binance.com/>

<https://cex.io/>

<https://www.mtpelerin.com/>

(This last one is working better from a smart phone, in our experience)

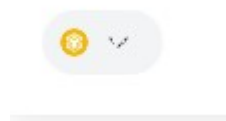

Disclaimer: we are not related to this exchanges, we provide them as an example and for the sake of helping. This exchanges have their own conditions and we are not responsible of the transaction performed with them.

Step 3: Add Binance Smart chain

Add Binance Smart Chain to Metamask:

<https://academy.binance.com/en/articles/connecting-metamask-to-binance-smart-chain>

and select it before next step.

This is particularly important, because there are several networks in crypto world and you have been to be properly connected, so the funds are transferred from and to your Wallet.

Step 4: Follow this guide to withdraw the token to your Metamask wallet

<https://support.metamask.io/hc/en-us/articles/10469965997339-How-to-move-your-tokens-from-a-centralized-exchange-CEX-to-MetaMask>

Go to recom3 site:

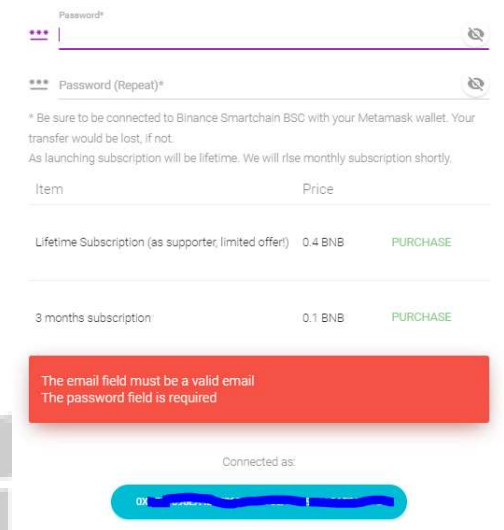

<https://www.recom3.com>

Item	Price	
Lifetime Subscription (as supporter, limited offer)	0.4 BNB	PURCHASE
3 months subscription	0.1 BNB	PURCHASE

Metamask will pop up and ask to connect to the site. If not, click in the icon next to address bar:

After that, your wallet address will be displayed bellow:

*** Password*

*** Password (Repeat)*

* Be sure to be connected to Binance Smartchain BSC with your Metamask wallet. Your transfer would be lost, if not.
As launching subscription will be lifetime. We will rise monthly subscription shortly.

Item	Price	
Lifetime Subscription (as supporter, limited offer)	0.4 BNB	PURCHASE
3 months subscription	0.1 BNB	PURCHASE

The email field must be a valid email
The password field is required

Connected as:

0x [redacted]

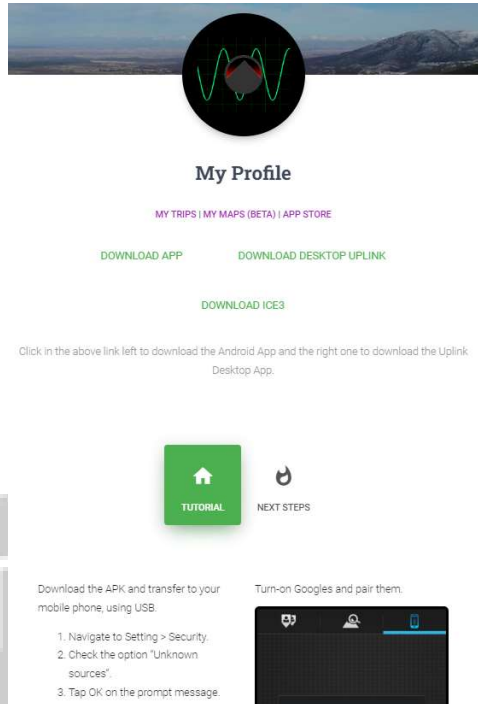

Now you are connected and can click PURCHASE.

In the top menu click login and enter with your mail + password (chosen in previous step).

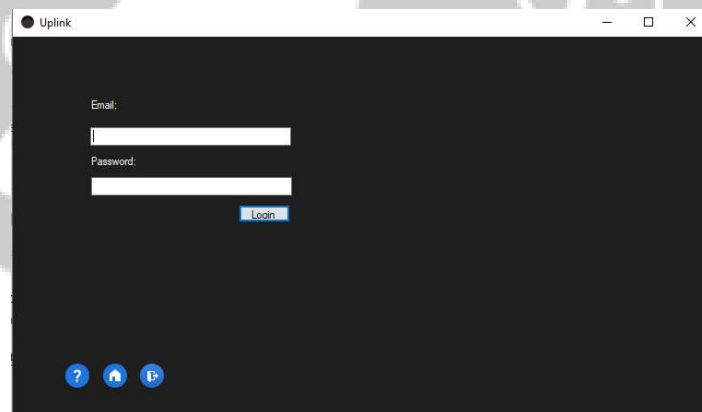

Don't forget password, as will be needed to login to private area.

Enter the private area of the web:

<https://recom3.com/web/#/profile>

Download the software DESKTOP UPLINK to your pc.
Connect the glasses (already powered up) via USB cable.
Run DESKTOP UPLINK and login with user/password again.

The glasses will synchronize and install un-blocker app (maybe restart of the glasses are needed).

The glasses will prompt you to install the new app.

From now on, the block screen will appear, but after 3-5 seconds will go out and you can use them (is important mostly in Jet Glasses).

This procedure is the same to upload your tracks to the web and view them on the map.

Available software

Desktop Uplink PC: enables to connect with PC and to the web.

Android App Android: all app connected to recom3.

ICE3 App Android: new App developed from scratch with enhanced functionality like GPS assist (1) and Bluetooth-WWW Bridge to be give the goggles connectivity with Internet (2).

(1)Is much faster to detect GPS.

(2)Installed apps like Weather need to connect to be able to download updated prognoses, for example.

Additional tips

You only need one subscription for any devices you have.

For the maps, it depends on the version of Goggles software. For factory reset goggles we have to produce the maps for you (just request the resort). For upgraded goggles, you can produce it by yourself using our Desktop App (download from private area).

Current known versions of the software:

Snow 3.0 (this is the version you get when you reset the snow goggles)

Snow 4.5 (upgraded snow 2)

Jet Glasses Homer (factory reset of Jet Glasses, similar to Snow 4.5)

Jet Glasses 4.6 (upgraded Jet Glasses)

GoPro still is not ready in market place of recom3 but will be available soon. When ready you can install it with Desktop App.
